Add Mode - F4

Search - F7

Last Edits - F9

OK - F12

1. In the Setup Barcode Template field enter

- Six #s to ignore the WSLAC+space
- Nine Rs to give the same CRN as on the notice e.g. 514754202
- One # to ignore the check digit 1 following the CRN
- Ten \$s to get the correct invoice amount

2. Hit the Enter key and the Biller ID will be captured as WSL

NOTE: The number of symbols in the template must match the number of characters (including the space) in the barcode test.
