

Feature Summary

Levy Interest Rate Changes

Strata Master Version 12.0.4 delivers several enhancements to the way in which Levy Interest is both recorded and calculated in Strata Master.

Previously in Strata Master, only one rate of Levy Interest was able to be recorded for each plan in your portfolio.

Version 12.0.4 provides you with the ability to record multiple interest rates, ensuring the correct levy interest rate is always charged.

For detailed notes on using this feature please refer to the [Levy Interest Rate Guide](#)

Defects Resolved

Cash Management Report	In some instances, the Cash Management Report was excluding the levy income in the net cash flow calculation. This issue has been resolved.
Section 107 Status Certificate Template	When producing the Section 107 Status Certificate, phantom levies were being included. This issue has been resolved.
Duplex Printing	In some instances, an error occurred when attempting duplex printing on a Terminal Server environment. This issue has been resolved.
