

File Smart Version 9.0.7.0 Release Notes

What we fixed

File Smart v9.0.5.30 failing to download Visual C++ 2015-2022

The File Smart v9.0.5.30 build was failing to download Visual C++ 2015-2022. This issue has been resolved.

Collation reporting 'Error' for all emails sent.

After creating a collation in File Smart Printmail, the contacts in the email tab all showed their status as 'Error' when sending the emails. This issue has been resolved.

Barcode Scanning Slow

Scanning a barcoded invoice exceeded the allowed processing time, causing a 'Workflow Logic Error'. This issue has been resolved.
